The Wisconsin School Drug Administration Law states that the only way non-prescription drugs (such as ibuprofen or acetaminophen) can be administered at school is if **“drug product is supplied by the pupil’s parent or guardian in the original manufacturer package, and the package lists the ingredients and recommended therapeutic dose in a legible format.”** To simplify, the school cannot provide any medication for students. If you would like your child to receive any nonprescription medication, for any reason, you will need to supply the medication in the original packaging and complete the Medication Consent Form.

I give the Green Lake School permission to provide emergency medical attention to include transport to local hospital as needed.
