377.1 – State Tournament Attendance

The value of state competition in co/extracurricular programs is acknowledged and respected by the Green Lake Board of Education; however, it is also acknowledged by the board that our primary function as a school district is educational and instructional in nature.

Therefore, every attempt will be made to assure the least amount of disruption to the school day, thereby enhancing the amount of instructional time available.

On occasion, co/extracurricular teams may achieve a level of excellence that allows them to participate in state competition. When this happens, it is the responsibility of the district to protect the instructional time of our students.
