384 - Murals

A student wishing to paint a mural on school grounds may only do so as part of an approved art class. The work must be original, nothing which might be construed as a copyright infringement.

A rough sketch and preliminary location will be presented to the teacher and principal for approval. All murals will be signed and dated by the artist.

Because of the constant wear and tear on walls of a building it may be necessary to repaint/replace existing murals.
