

<b>SCHOOL DISTRICT OF GREEN LAKE POLICY</b>	<b>610 – Fiscal Management Goals</b>
	<b>Finance Management</b>

**610 – Fiscal Management Goals**

The quantity and quality of learning programs are directly dependent on the funding provided, and the effective, efficient management of those funds. It follows that the District's purposes can best be achieved through excellent fiscal management. Further, the District recognizes the important trust it has been given with the responsibility of managing a large amount of public resources. As trustee of local, state, and federal funds allocated for use in public education, the District will be vigilant in fulfilling its responsibility to see that these funds are used wisely for achievement of the purposes to which they are allocated. It is essential that the District takes specific action to make sure education remains central and that fiscal matters are ancillary and contribute to the educational program.

In the District's fiscal management, it seeks to achieve the following goals:

1. Engage in thorough advance planning in order to develop budgets and to guide expenditures so as to achieve the greatest educational returns for the dollar expended.
2. Establish levels of funding which will provide high quality education for the District's students.
3. Use the best available techniques for budget development and management.
4. Provide timely and appropriate information to all staff with fiscal management responsibilities.
5. Establish maximum efficiency procedures for accounting, reporting, business, purchasing and delivery, payroll, payment of vendors and contractors, and all other areas of fiscal management.
