Green Lake students participate in the first annual Cultural Sharing Day

Over half of the 6th grade class attended the annual DNR hearing held at Green Lake School. Students were excited to learn about the process that the DNR takes to help conserve our local natural resources. Students were invited to vote on the issues they learned about during the event and also invited to ask questions and learn more. Below is a note sent to the sixth grade teacher from a DNR Representative:

"First, thank you for taking the time to attend our Spring Hearing meeting with your class. First time we have had that age group attend a Congress event that I am aware of. You are to be commended in showing the children of today how some parts of the "system" work and that Wisconsin is the only state that has such a process to establish Conservation regulations. Your class is also to be commended in their quality behavior that they demonstrated throughout our meeting. Nice to see our future adults acting with a positive and inquisitive mind for the events of the evening."

-Paul Gettelman

Our friends visiting from Thailand, from the Sunshine Exchange Program, gave a presentation to share about their culture with our 4K through 8th Grade students and experienced camping during their visit.

The Green Lake School District, in partnership with the community, commits to an education of excellence by creating a safe environment that encourages mutual respect, enthusiasm for learning through personal attention, and integrated, challenging curriculum so that students can reach their full potential as positive members of our community and the world beyond the classroom.

The 2018-19 school year could be summed up as the year of “bad weather.” We had eight school recess days due to snow and extremely cold weather. That may be a record. As students and staff members enjoyed the days off initially, it became apparent that we would have to make up some of the instructional time, and summer would not be a good option. We were able to squeeze in our state-mandated minutes by canceling early releases and a scheduled school recess day.

The year also was marked by the focus on “school safety.” The district received a generous safety grant from the Wisconsin Department of Justice that funded numerous projects. The district was able to replace their antiquated communication system. Physical enhancements to the two main entrances and new safety locks for classrooms were installed. The grant not only accounted for physical safety, but for social and emotional health, as well. All staff members were taught to recognize trauma in students and given strategies to help those in need through several Adolescent Mental Health trainings. The entire staff was also trained how to recognize and respond to threats in the school. The addition of School Resource Officer, Keith Kuipelis, rounded out the plan to keep students safe at Green Lake.

Eighteen juniors and seniors are currently taking International Baccalaureate exams. Of the eighteen, eleven are seniors. Of the eleven, three are full IB Diploma students. Depending on exam scores, the eleven students could potentially receive a total of 138 college credits. Students will receive their exam scores in early July. Good luck to all of them. What a great way to start your college career!

If you have not seen the grill designed and built by Mr. Kuehn’s technical education class, you have to see it!!! As part of the Project Grill competition sponsored by Envision Greater Fond du Lac, our students competed in a grill making contest with 8 area schools. They spent an entire year designing and building a functional grill within an established budget. A representative from Merc Marine served as their manufacturing advisor, and the American Legion became a partner in the project. The American Legion will be featuring the grill as one of the prizes in their annual raffle. Please see someone from the Legion for raffle tickets. The Green Lake Project Grill class did not win the competition this year. They plan to enter again next year, and don’t be surprised if they come home with the trophy.

I would like to give a sad farewell to four of our staff members who are leaving the district. Marsha Krahn, Mary Hunter and Chris Washkovick have decided to retire. Alyssa Paulsen is resigning to embark on new endeavors in her life. We will sincerely miss them.

Lastly, thank you to all of the parents, community members, and volunteers who make our school such a special place. Your ideas and hard work, along with your encouragement and support, are greatly appreciated. Have a wonderful summer!

Congratulations to the cast and crew of *The Time Machine* for putting on amazing performances this spring!

Savannah Robinson and Jon Baranowski were selected as Rotary Students of the Month for the month of April. All graduating seniors were given the opportunity to attend Rotary meetings.

Mr. Ladwig was presented with the 2019 LEAF Wisconsin School Forest Award. Mr. L was nominated by his fellow colleagues. This award was presented by Gretchen Marshall from UW –Stevens Point LEAF program. Mr. Ladwig was honored for his ongoing contributions to the Green Lake School Forest located at the Green Lake Conference Center.

Elementary Counseling Connection

Social Emotional Learning (SEL) Update
Most of our elementary classes are completing Unit 4 in the Second Step curriculum.

In Unit 1, Skills For Learning, we learned about focusing our attention, using self-talk, listening and following directions, and how to ask for help assertively. Unit 2 taught us how to read feelings by looking at others' faces and bodies and observing the situation. We learned what empathy and compassion are and how we can help others by understanding how they feel and asking if they are okay. Unit 3, Emotion Management, has taught us how we feel feelings in our body, why it's important to name our feelings, and that all feelings are valid. We are currently learning appropriate ways to manage our emotions so we choose acceptable responses to strong feelings. SEL has been identified as one of the most important concepts we can teach our Children today. Empathy, compassion and being able to identify our feelings are key concepts in our Second Step lessons.

For more information on the importance of teaching SEL please see below.

Have a safe, fun, and mindful summer; remember to practice your SEL skills.

The 2019 talent show was a huge success!

The students did a phenomenal job showcasing their talent. This year we had 6 acts.

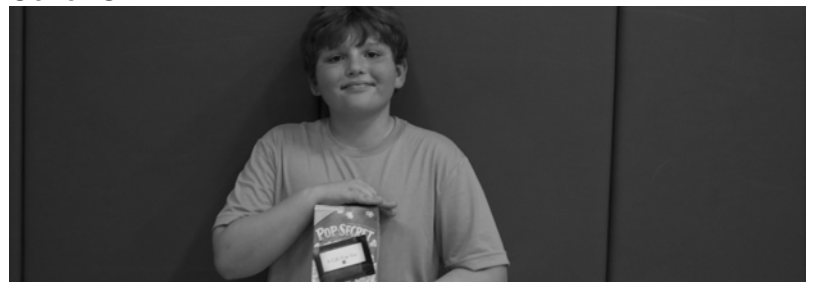

The winning people's choice act raising the most money was a sensational shadow dance performance by Jadyn, Winnie, Olivia, Madeline and Abby.

1st place Student Council vote: Musical Performance by Frankie, Tony, and Jason M.

2nd place Student Council choice – Musical Performance by Conor G.

The talent show raised over \$1270 that will help Renewal of Green Lake. Thank you to all of our talented performers, their families and community members for all you do for our students!

Emma Moore, a freshman at Green Lake High School has been awarded first place in the Congressional Art Competition! This year's show contained artwork from 26 students from 11 area schools. Emma's drawing titled "Beauty" was recognized locally at an Art Reception held at the Steinhilber Art Gallery at UW-Oshkosh. Students, teachers, and families of the artists came to see the show and celebrate their accomplishments. Some in attendance even found themselves looking at a particular woman and feeling as if they knew her. You see, this woman was the inspiration behind Emma's drawing "Beauty", Emma's grandmother. The art piece's resemblance to Grandma is uncanny...breathtaking to say the least.

Emma will also be recognized this summer at the annual awards ceremony at the Capital in Washington D.C. Her art piece will be displayed there in the Tunnel between Cannon House Office Building and the Capitol building for 11 months

This spring, Green Lake's Outdoor Education program had two camping trips. The first was with the Science Club to Perrot State Park. The weather was predicted to be cold and rainy on the first day so a detour to UW-La Crosse was planned to check out the ornithology lab before heading to the park. Kristen Baranowski, a 2016 Green Lake graduate, talked with the group about unique facts on many birds from around the world. She showed us hundreds of preserved specimens and some of the key identifying factors.

Once we made it to the park, camp was set up and the first of many hikes up and down the bluffs began. The Mississippi River was easy to see from atop the bluffs since the leaves were yet to have grown. Students learned about the river valley and had a lot of existential conversations.

The second trip was the annual 8th grade camping trip to the School Forest. The trip started off rainy and cool, but the students stayed warm by pulling thousands of garlic mustard plants, an invasive species, at the Sunnyside Conservancy as part of a service learning project. Lisa Reas came out to teach the students about the many conservancy properties around the lake and what is being done to manage them.

The remainder of the trip can best be described by some student quotes:

"The 8th grade camping trip was a very fun and educational experience. During the camping trip we kayaked, hiked, played volleyball, and just relaxed. I learned about the history of the conference center, about the couple who first built the structures and tried to farm there. Overall the camping trip was an amazing experience and I am excited for the camping trip next year."

-Carley Chyma

"For me camping was very fun, I feel like our class is very close but I think that we got even closer. I think we learned more about teamwork and cooperation. I had a very good time because I got to learn more things and got to hangout with the kids in my class which are my very best friends. Overall, I can't wait for next year because I know it will be very fun."

-Avery Nigbor

"I had fun. I enjoyed kayaking and sitting in a tree. The food tasted good and overall changed my opinion of camping."

-Jacob Moore

"I thought the camping trip was a lot of fun. I enjoyed hiking all around the Conference Center and learning about the history of the Conference Center. I enjoyed canoeing on Green Lake and spending time on the water. I loved camping with my class and the fun we had."

Give Peace a Chance!

The Beatles aren't the only ones who care about peace. Green Lake students dedicated a Peace Pole to honor and value world peace in front of Green Lake School on the corner of Mill and Scott Streets this year on Earth Day, April 22.

Our Peace Pole began as an International Baccalaureate (IB) CAS (Creativity, Activity, and Service) project initiated by Senior Diploma Candidate Joseph Simmers and supported by Green Lake High School's Leadership students.

Peace Poles are one of the most prominent symbols of peace throughout the world. Over 200,000 Peace Poles exist in over 180 countries on every continent on Earth. The closest Peace Pole monument can be found nearby at Ripon College.

Every Peace Pole proclaims the message: "May peace prevail on Earth" in the language of the country and many times other languages as well. Green Lake's Peace Pole will state the message in English, Spanish, French, and German.

The Green Lake Peace Pole is patterned after other peace poles found throughout the world. "We came up with several design ideas," explained Simmers. "We ended up choosing the one that fit the restrictions we had and that represents our school well."

Besides having the support of Leadership students Lauren Chyma, Raven Davis, Emma Vrechek, and Shelby Scholl, Simmers partnered with Green Lake Rotary Club, the City of Green Lake, and Mr. Kuehn's Life Skills students. To round out this community effort, our Mayor Jon McConnell officially proclaimed April 22nd as International Peace Day in Green Lake.
